epesaver@frontierenergy.com

Mail Application To:
EPESaver Rebate Center
1515 S Capital of Texas Hwy, Suite 110
Austin, TX 78746

Improve Your Comfort. Save Energy.

The EPESaver Commercial ENERGY STAR® Cool Roof Rebate Program provides rebates to encourage the installation of ENERGY STAR® Cool Roofs for commercial and industrial retrofit projects.

ENERGY STAR® qualified roof products reflect more solar rays, decreasing the amount of heat transferred into a building and can reduce the amount of air conditioning needed in buildings. Resulting in reduced peak cooling demand and increased energy savings.

Check List

Incomplete applications WILL NOT be accepted. Did you include?

- Copy of Dated Receipt or Invoice
- Product Specification Sheet
- Pre and Post Installation Pictures
 - Existing Roof Surface Layer
 - Cooling Equipment Badge
 - Heating Equipment Badge
 - New Insulation and Type
 - New Roof Construction
- Complete Existing Roof Type
- Complete Project Scope
- Complete and Verify EPE Account Information:
 - Name on Account
 - Account Number
 - Service Address
 - Mailing Address

v. 4.17.18

El Paso Electric

EPESaver Commercial ENERGY STAR® Cool Roof Rebate Program

New Mexico

Improve Comfort. Save Energy.

El Paso Electric's Commercial Customers have the opportunity to participate in the EPESaver Commercial ENERGY STAR® Cool Roof Rebate program. The installation of an ENERGY STAR® Cool Roof decreases heat transfer and reduces the solar heat transmitted into the building space resulting in less cooling energy use.

The Knowledge You Need.

ENERGY STAR® Cool Roofs offer enhanced durability and reduced cooling loads. Commercial Customers are eligible to receive **\$0.15/SqFt** rebate for the installation of an ENERGY STAR® Cool Roof on retrofit projects.

Eligibility Criteria

- New Construction projects are not eligible for rebate.
- Low-Slope Roof 2:12 or less.
- Project area must be over a refrigerated air conditioned space.
- 75% of the roof surface over air conditioned space must be replaced.
- No significant obstruction of direct sunlight to roof.
- Pre and Post Inspection Required.

Rebates are issued on a first come basis until funding is exhausted or program is changed. All rebates are subject to approval by EPE's Program Manager.

Product Eligibility.

- ENERGY STAR® Qualified Product
www.energystar.gov/productfinder/product/certified-roof-products
- Initial Solar Reflectance greater than or equal to 0.70.
- Solar Reflectance greater than or equal to 0.50 at 3 years.
- Initial Thermal Emittance greater than or equal to 0.75.
- SRI greater than 29 at 3 years.

Participation Made Easy.

1. Select a Product
2. Take Pictures
 - a. Existing Roof Surface Layer
 - b. Cooling Equipment Type and Energy Efficiency Rating Serving Top Floor
 - c. Heating System Type and Energy Efficiency Rating Serving Top Floor
 - d. New Roofing Construction
 - e. New Insulation Type and Thickness
3. Install Your Product and Call For A Post Inspection
4. Submit Completed Rebate Application to the EPESaver Rebate Center with the following:
 - a. Invoice or Receipt*
 - b. Pictures
 - c. Product Specification Sheet
5. Receive rebate in 4-6 weeks.

*All invoices must clearly indicate the type of roofing material installed, the brand of product purchased and the total cost for materials and installation. Project must be completed in Program Year to be eligible for rebate.
