## 2 INSTALLATION INFORMATION (Must complete all fields)

### ENERGY STAR® Refrigerated Beverage Vending Machine

Please provide documentation of ENERGY STAR rating and copy of manufacturer spec sheet for installed machine

### Vending Machine Controls

Please provide copy of manufacturer spec sheet for installed control

| Machine Capacity (#cans) | < 500                | 500-599              | 600-699              | 700-799              | 800+                 |
|--------------------------|----------------------|----------------------|----------------------|----------------------|----------------------|
| Number of Machines       | <input type="text"/> | <input type="text"/> | <input type="text"/> | <input type="text"/> | <input type="text"/> |

Control Software Installed: (Check one)  Yes  No

Control Manufacturer:  Control Model Number:

Number of Vending Machine Controlled:

| Class A              | Class B              | Combination A        | Combination B        |
|----------------------|----------------------|----------------------|----------------------|
| <input type="text"/> | <input type="text"/> | <input type="text"/> | <input type="text"/> |

Class A means a refrigerated bottled or canned beverage vending machine that is not a combination vending machine and in which 25 percent or more of the surface area on the front side of the beverage vending machine is transparent.

Class B means a refrigerated bottled or canned beverage vending machine that is not considered to be Class A and is not a combination vending machine.

Combination A means a combination vending machine where 25 percent or more of the surface area on the front side of the beverage vending machine is transparent.

Combination B means a combination vending machine that is not considered to be Combination A.

Combination vending machine means a bottled or canned beverage vending machine containing two or more compartments separated by a solid partition, that may or may not share a product delivery chute, in which at least one compartment is designed to be refrigerated, as demonstrated by the presence of temperature controls, and at least one compartment is not.

If the type of vending machine is unknown, use the values for Class B machines.
