

New Mexico
Commercial Comprehensive Program

Refrigerated Beverage Vending Machines

- ✓ **REDUCE ENERGY USE**
- ✓ **REDUCE ENERGY COSTS**

ENERGY STAR® qualified new and rebuilt refrigerated beverage vending machines are 40% more efficient on average than standard machines. They incorporate more efficient compressors, fan motors, lighting, and low power operation modes during times of inactivity.

- Most facility types qualify
- Apply for rebates online, by mail, or through a service provider
- Eligible new or rebuilt machines must meet ENERGY STAR specifications
- Visit www.epesaver.com/services/energy-star-refrigerated-beverage-vending-machines for more information

Available Incentives

Refrigerated Beverage Vending Machines

\$115/unit
