

New Mexico
Commercial Comprehensive Program

Water Conservation Measures

- ✓ **REDUCE ENERGY USE**
- ✓ **REDUCE ENERGY COSTS**

Installing low-flow aerators, showerheads, and pre-rinse spray valves will reduce energy use and increase electric water heating performance.

Building Types May Include

- | | |
|------------------------|-------------------------------------|
| Fitness Centers | Schools & Dormitories |
| Restaurants | Healthcare & Hospitality |
| Supermarkets | Commercial & Industrial |

- Apply for rebates online, by mail, or through a service provider
- Visit www.epesaver.com/services/water-conservation-measures for more information
